1st edition

Paris expo

November 21 & 22, 2020

Edito

Welcome to beginners, amateurs and professionals alike, to the first edition of the Portraits photography fair to discover the art of photographic portraiture. Our edition focuses on this very specific theme of photography, the art of portraiture in color but also in monochrome! This meeting place, at the exhibition center in Paris, is the major event not to be missed to discover, progress, but also to learn about portraits. Meet many professionals such as Maria & Dominique Cabrelli, top 3 of the WPJA, or Anthony Ornecq, director of Zap together, and lots of renowned photographers in the field of photographic portraiture. Your photographer's soul will enjoy discovering the 3 pavilions dedicated to portraiture through its different services.
